SKU
: 5141

BRAND
: DIXON VALVE

MODEL
: 500BFP

Applications:
Preventing contaminated water from re-entering the supply system is a critical point in keeping our water clean. The 500BPF was designed to specifically perform this function on garden hose applications. This spring-loaded valve system is installed between the supply spigot, and, the actual hose assembly. It features a tamper-proof, anti-theft locking device to ensure that the device will always remain where you've installed it. Rugged brass & stainless steel construction ensures long service life.

Construction:
Brass extruded stock
Stainless steel components

Note:
ASSE® 1011 certified

Safety notes:
WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov
