SKU
: 13857

BRAND
: DIXON VALVE

MODEL
: FT1001-12

Applications:
The FloTech API Optic 5 wire system is perfectly suited for both new and existing tank installations. The components have a long list of features which make them more reliable than competitor products; the result is years of trouble free service.
The FloTech API Optic 5 wire system is a conventionally wired system, which requires wiring connections to be made using crimp connectors.

Use:
Top Detection Only

Specifications:
Compatible with the Scully brand 5 wire optic system. The components are drop-in replacements and compatible with the signal format required by Scully brand API Optic 5 wire on-board monitors.

Features:
API optic 5 wire, 1 compartment overfill detection system (top only)- 12" probes
FloTech brand overfill system kits provide everything needed to install a new overfill system on your tank. Systems include: 1 FT103 monitor, 1 FT101 overfill sensor per compartment, cable and strain reliefs (cable glands).

Available Options:
Custom probe lengths are available upon request.

Note:
All FloTech™ electronics manufactured after January 1, 2015 are covered by our 5 year warranty.
