DATE
: 11/23/2026 05:04 PM

SKU
: 14065

BRAND
: DIXON VALVE

MODEL
: FT530

Applications:
Designed to read and test trailer identification modules mounted inside API compatible overfill sockets.

Use:
Designed to read trailer identification module chips
FloTech FT530 is a self contained microprocessor capable of reading the serial number embedded into the trailer identification module located in the trailer socket. This tester will verify operation and display the unique serial number you need to enter into the terminal automation system.

Features:
Backlit LCD display
Interchangeable optic or thermistor J-slot screws
Provides long battery life
Includes FT520Optic system tester, 4 pc set of test leads, batteries and instructions

Construction:
Solid aluminum construction

Note:
All FloTech™ electronics manufactured after January 1, 2015 are covered by our 5 year warranty.

Safety notes:
WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov
