SKU
: 15836

BRAND
: DIXON VALVE

MODEL
: HUPALL600

Applications:
Prevents leakage of hydraulic fracturing fluids from hammer union connections used on manifolds and hose assemblies.
Hammer union caps and plugs can be used in pressurized service or as dust caps/plugs on site or when transferring equipment.

Specifications:
Forged steel meets AISI standards

Features:
Forged steel construction ensures longevity, reliability and performance
Plugs are designed with a larger handle for easier installation and disassembling

Construction:
Figure 100/200 has a metal-to-metal sealing surface and Figure 206 is similar to Figure 200 with a secondary seal to supplement the metal-to-metal design.

Safety notes:
WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov
Working pressure for Figure 100 = 1000 PSI and Figure 200/206 = 2000 PSI
