: 910

MARCA
: DIXON VALVE

MODELO
: 13SLN

Features:
Lines using PTFE gaskets that are subject to large temperature swings can benefit from this special product. As the PTFE is compressed through the cycling of the lines, the spring load will help keep the connection from leaking.
If the lines suffer from vibration and bolted clamps are not an option, refitting single pin clamps with this nut will keep the connections from leaking for a longer time than the standard wing nuts.
If you transport material in tanks via truck, the vibrations can loosen the standard single pin clamps. Spring loaded nuts can add a level of insurance to the shipment.
Can be used on all wing nut style clamps

ESPECIFICACIONES TÉCNICAS

Description	Spring Loaded Nut
Factory Part Number	13SLN
Material	304 Stainless Steel
Thread Size	5/16" -18
Torque	To 50 in. lb.
Weight Lb	0.2450
