MARCA
: DIXON VALVE

MODELO
: BC62-200

Applications:
Bayonet dry disconnect fittings are ideally suited for the spill-less transfer of petroleum products such as fuel oil, lube oil blending, and tank truck delivery. The design of the Bayco bayonet dry disconnect system ensures a spill free connection, fluid cannot flow until couplings are connected together and the valve is opened. The coupling can then not be disconnected until the valve handle is closed.

Specifications:
Canadian registration number CRN# OH14055 all provinces

Features:
Helps eliminate the possibility of costly spills

Compatibility & Interchange Data:
Interchangeable with the Emco Wheaton™ Dry Break™

Note:
Rubber dust plugs with stainless steel chains are available to protect the coupler from contamination and damage.

Safety notes:
For pressure ratings at other temperatures contact Dixon®.
