Applications:
Allows complete testing of ground bolt grounding systems. Tests ground bolt in forward and reverse just like the rack monitor.

Features:
First fully automatic truck tester capable of testing API optic systems and API Thermistor systems with 2 wire optic sensors.
Reads TIM modules and displays the serial number on the screen
Automatic mode allows all four tests, or any combination, to run for a complete test of the trailer
LCD screen displays the final test results and a pass/fail indication for easy rapid testing of the overfill system
One man "Wet Test" feature FT555 signal an audible alarm sounding a number of beeps that match the wetted sensor
Microprocessor controlled with designed in flexibility to expand into a number of applications

Note:
Requires two D cell flashlight batteries that can be changed through a side battery access door
All FloTech™ electronics manufactured after January 1, 2015 are covered by our 5 year warranty.
