MARCA
: DIXON VALVE

MODELO
: GF111P1

Applications:
Boss Holedall fittings are designed for air and liquid applications where a permanent, low profile clamping system is desired.

Features:
Fittings are supplied with carbon steel ferrules.

Construction:
Machined shank

Note:
Dixon has changed this part from a cast shank to a machined shank. Because of this change we have updated the swage / crimp chart. Please consult the new recommendations on our website for swage and/or crimp specifications.

Safety notes:
Not for steam service.
Worn-out hose couplings can be dangerous. They should be checked regularly and replace when necessary. Each coupling user should review applications and add safety devices where indicated.
